# YOU'RE IN GOOD HANDS

Our mission is simple: to ensure our customers return home safely to their families and loved ones every day.

We craft safety solutions for hardworking individuals in the most demanding environments —steel plants, aluminum industries, oil rigs, and other heavy industries.

As the leader in protective clothing and equipment, we pride ourselves on designing every product with purpose. Collaborating closely with our users, we've built a culture of constant innovation, refining methods, concepts, and products to meet ever-evolving needs.

Today, we're more than just a supplier; we're a trusted partner. Through unmatched expertise and service, we create smarter personal protective equipment and help make the world a safer place.

# HEAT PROTECTIVE CLOTHING MADE IN SWEDEN

Certified by Rise.  
Certified protective clothing means  
that you can be safe with us as a  
supplier.

From the start, we've worked  
hand in hand with our users  
to ensure our products meet  
their needs. Development and  
production have always been  
proudly rooted in Sweden,  
where safety and comfort  
remain our top priorities in  
every product.

# WHAT SHOULD I CHOOSE?

## RED PROTECTION

A1, B1, C1, D3, E1, F1

When you need protection from molten metal. Red Protection is specially developed for the aluminum industry, but is also used in other industries where you want to protect against metal splashes, but do not need protection against radiant heat.

## SILVER PROTECTION

A1, B1, C3, D3, E3, F1

When you need protection against radiant heat and molten metal. Silver Protection is primarily used by iron works, steel works and heating plants. Our certified protective clothing covers all needs for protection against radiant heat and molten metal. From hood, coat, trousers, gloves and foot protection. It's possible to combine products from silver & red protection.

Protection Red has good anti-static properties as the material is naturally anti-static.

For full body protection, the protective clothing system shall cover the whole body.

Additional protective garments shall be worn in addition to a suit certified according to EN ISO 116:2015.

## HEAT PROTECTION SILVER

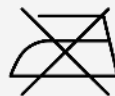

DO NOT WASH

DO NOT BLEACH

DO NOT TUMBLE DRY

DO NOT IRON

DO NOT DRYCLEAN

## HEAT PROTECTION RED

MACHINE WASH AT 60°C

DO NOT BLEACH

DO NOT TUMBLE DRY

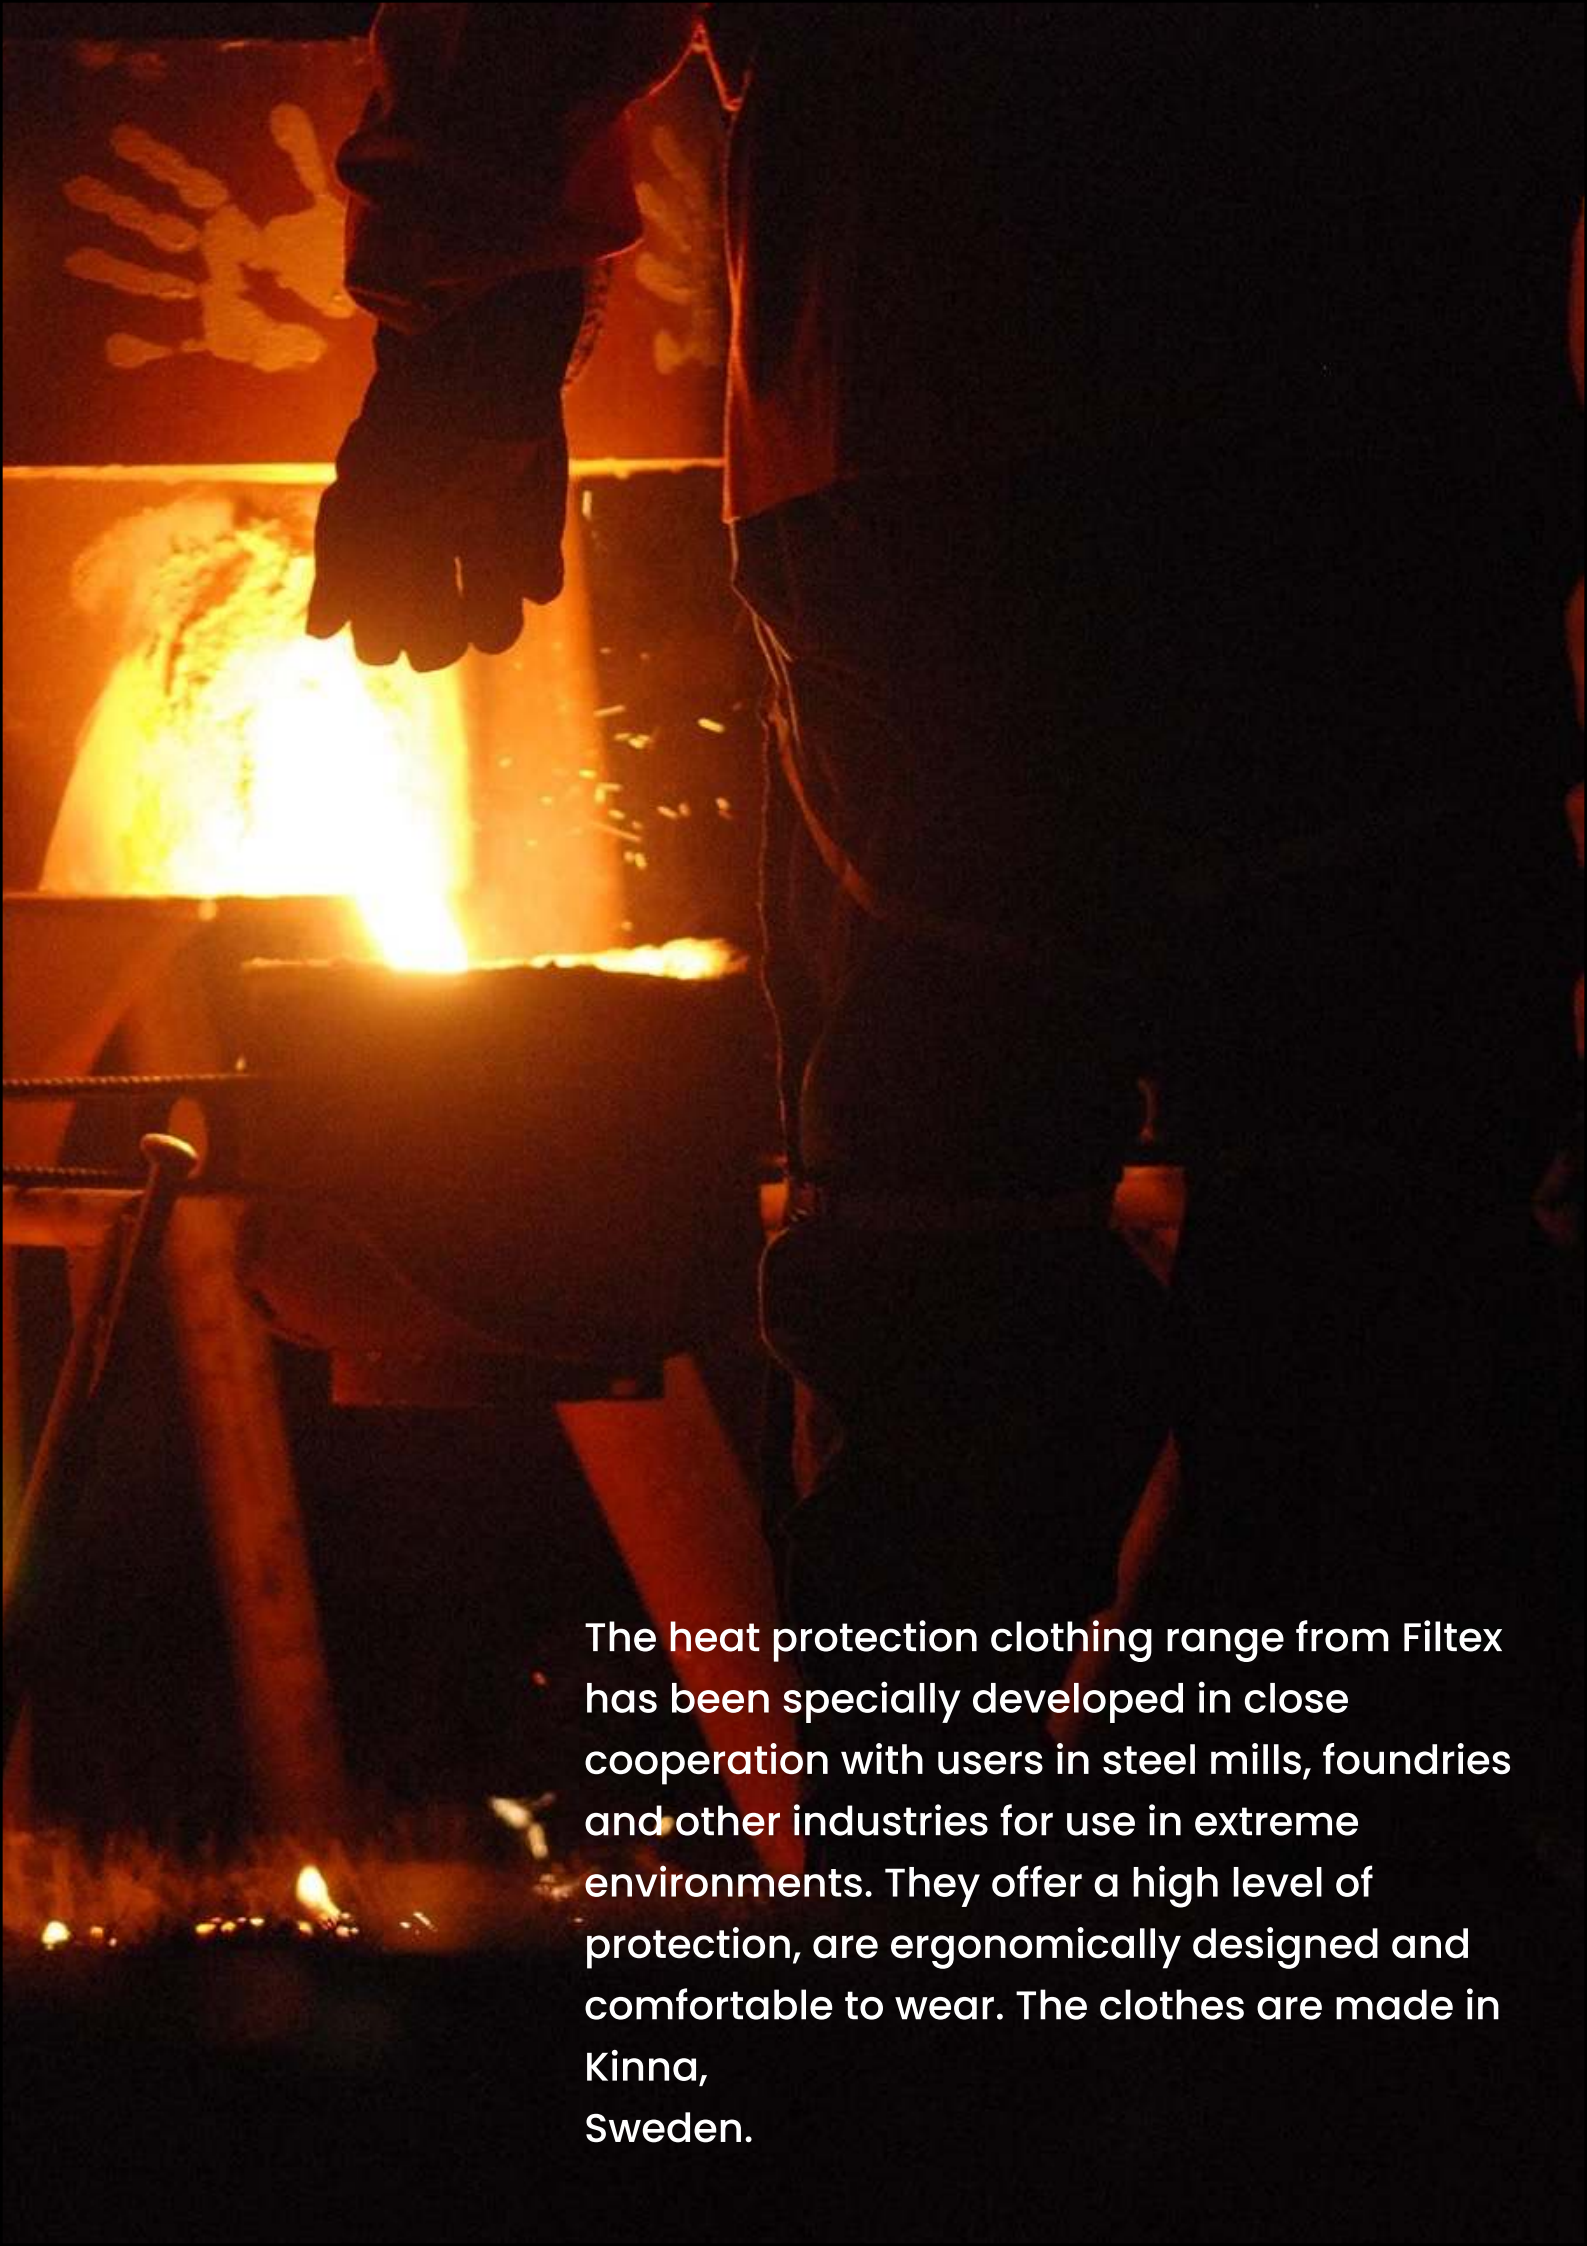

IRON MEDIUM

DO NOT DRYCLEAN

The heat protection clothing range from Filtex has been specially developed in close cooperation with users in steel mills, foundries and other industries for use in extreme environments. They offer a high level of protection, are ergonomically designed and comfortable to wear. The clothes are made in Kinna, Sweden.

# OUR CORE VALUES

## RELIABLE

We build trust through our actions and products, ensuring confidence among our customers, suppliers, and business partners.

## INNOVATIVE

By constantly refining our products and exploring groundbreaking solutions, we deliver top-tier protective gear.

## COMMITTED FOR THE FUTURE

We foster long-term relationships, both internally and externally. Our products are designed with longevity in mind, aiming to retain loyal customers and partners for years to come.
